

1(b)

U.S. Goods Trade by Product, 2024

Top 5 products by value. A product is a detailed end-use commodity (about 140 categories).

U.S. EXPORTS · total **\$2,065B** · top 5 = \$439B (21.2% of exports)

- 1. **Crude oil**— \$118B (5.7% of exports)
- 2. **Pharmaceutical preparations**— \$108B (5.2% of exports)
- 3. **Other petroleum products**— \$78B (3.8% of exports)
- 4. **Other industrial machinery**— \$71B (3.4% of exports)
- 5. **Semiconductors**— \$65B (3.2% of exports)

U.S. IMPORTS · total **\$3,267B** · top 5 = \$890B (27.2% of imports)

- 1. **Pharmaceutical preparations**— \$247B (7.6% of imports)
- 2. **Passenger cars**— \$214B (6.5% of imports)
- 3. **Crude oil**— \$167B (5.1% of imports)
- 4. **Other automotive parts and accessories**— \$146B (4.5% of imports)
- 5. **Computers**— \$117B (3.6% of imports)

\$0B \$500B \$1,000B \$1,500B \$2,000B \$2,500B \$3,000B

Billions of dollars

Note: "Other petroleum products," "Other industrial machinery," and "Other automotive parts and accessories" are residual end-use codes, not single products.

Source: U.S. Census Bureau and BEA, "U.S. International Trade in Goods and Services, December 2024" (FT-900), Exhibit 7 (exports) and Exhibit 8 (imports), annual 2024 column. Goods only, Census basis, current dollars, seasonally adjusted. Detail may not sum to totals because of rounding.

2. Feenstra–Taylor, Chapter 1, Problem 1

2024 merchandise exports, million current U.S. dollars
Rows: reporting region; columns: partner region

Answers

All values are million current U.S. dollars.

(a)

World → World = 23,227,792.3

(b)

Europe → Europe = 6,152,186.6

Share of world exports: $6,152,186.6 \div 23,227,792.3 = 26.49\%$

(c)

(Europe → North America) + (North America → Europe)

= $(929,911.1) + (571,933.7) = 1,501,844.9$

Adding Europe → Europe:

= $(1,501,844.9) + (6,152,186.6) = 7,654,031.4$

Share of world exports: $7,654,031.4 \div 23,227,792.3 = 32.95\%$

(d) Trade within the Americas

NA = North America; SACA = South and Central America and the Caribbean.

= (NA → NA) + (NA → SACA) + (SACA → NA) + (SACA → SACA)

= $(1,630,359.6) + (230,565.5) + (167,177.0) + (159,383.1) = 2,187,485.2$

Share of world exports: $2,187,485.2 \div 23,227,792.3 = 9.42\%$

(e)

(Europe → World) + (North America → World) + (SACA → World)

= $(8,871,465.9) + (3,233,080.3) + (803,361.7) = 12,907,908.0$

Share of world exports: $12,907,908.0 \div 23,227,792.3 = 55.57\%$

(f)

Asia → World = 8,105,186.5

Share of world exports: $8,105,186.5 \div 23,227,792.3 = 34.89\%$

(g)

(Middle East → World) + (CIS → World)

= $(1,116,065.8) + (144,715.2) = 1,260,781.0$

Share of world exports: $1,260,781.0 \div 23,227,792.3 = 5.43\%$

(h)

Africa → World = 572,830.0

Share of world exports: $572,830.0 \div 23,227,792.3 = 2.47\%$

(i)

As in Table 1-1, Europe and the Americas account for the largest share, followed by Asia; the Middle East/CIS and Africa account for much smaller shares.
