

Economics 3200 Economics of Globalization
Professor James Harrigan
University of Virginia, F2026
Homework assignment 5
due 3:30pm Thursday October 8

You may use an LLM of your choice (ChatGPT, Claude, Gemini, etc) as well as your own non-artificial intelligence to download data and make any tables or charts. However, please do NOT use an LLM to create the text for your answer.

This assignment is based on the comparisons between Virginia and the United States that were covered in Lecture 10. The data source for that lecture and this assignment is State Immigration Data Profiles ([link](#)).

Pick a state that interests you other than Virginia. Compare that state to either Virginia or the United States as a whole, your choice. Create a report that compares

1. Population share of immigrants
2. Change in immigrant population share
3. Country of birth of immigrants
4. Educational attainment of immigrants

In addition to these four comparisons, pick two other features that interest you to compare. In addition to tables or figures, write a short narrative that explains what you found.
