1. FT Chapter 8, question 2
2. FT Chapter 8, question 4
3. FT Chapter 8, question 6
4. FT Chapter 8, question 11
5. Refer to “US–China tariff rates toward each other and rest of world (ROW)” on Slide 8 of Lecture 7 to answer these questions:
 - (a) How much did Chinese tariffs on US exports increase between January 2018 and January 2023?
 - (b) How much did US tariffs on Chinese exports increase between January 2018 and January 2023?
 - (c) How much did Chinese tariffs on ROW exports increase between January 2018 and January 2023?
 - (d) How much did US tariffs on ROW exports increase between January 2018 and January 2023?
6. Refer to [Who Is Paying for the 2025 U.S. Tariffs?](#) to answer these questions:
 - (a) What is the difference between “Average tariff rate” and “Average duty rate” in the first chart?
 - (b) Is “Average tariff rate” or “Average duty rate” more relevant to understanding the evolution of U.S. trade policy in 2025? Explain.
 - (c) The authors state “our results imply that U.S. import prices for goods subject to the average tariff increased by 11 percent (13 times 0.86) more than those for goods not subject to tariffs”. Explain this calculation.
